

*From the desk of the Village President...*

“Drip, drip, drop, little April shower... what can compare to your beautiful sound?”

As the song reminds us, April showers bring May flowers. Spring is a season of freshness and renewal — and the same can be said for our Village. Here in Forest View, our Board is united and moving forward with projects focused on safety, infrastructure, and enhancing the overall quality of life for our residents.

In May, we will host a Town Hall meeting to share details about our plans to replace lead service water lines to our homes and install a new water main. We will also present a water proposal with McCook that we believe will be highly beneficial to our Village’s future.

Additionally, with the formation of a new Veterans Committee, we are moving ahead with plans for a Veterans Memorial. You will be hearing much more about this meaningful project in the months to come.

Please take a moment to read through this Spring edition of our newsletter to stay informed on these and other important updates.

Like many of you, it feels good to finally step out from under winter’s blanket and welcome the brighter days ahead.
